PROFESSIONAL SUMMARY

Frontend-focused Computer Science undergraduate with strong foundation in building responsive and interactive web applications using HTML, CSS, and JavaScript. Hands-on experience in developing real-world projects with API integration, UI/UX improvements, and performance optimization. Familiar with React.js and Tailwind CSS for modern frontend development. Highly motivated to contribute to innovative product development in fast-paced startup environments.

EDUCATION

Bachelor of Technology in Computer Science Engineering

JNTU Engineering College Manthani | 2023 – Present

CGPA: 8.3

Intermediate (MPC) – 97.8% | 2023

SSC – GPA: 10.0 | 2021

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript, React.js (Basic), Tailwind CSS (Basic)

Programming Languages: Python, C

Tools & Technologies: Git, GitHub, Visual Studio Code

Database: SQL

Core Competencies: Responsive Web Design, REST API Integration, UI/UX Design Principles, Performance Optimization, Data Structures

PROJECTS

AI-Based Fake News and Deepfake Text Detection

- Developed an NLP-based system to identify fake and AI-generated content with improved classification accuracy.
- Performed data preprocessing, feature engineering, and model evaluation using Python libraries.
- Deployed the solution as a web-based application with an intuitive user interface.

Blood Donation Management System

- Built a full-stack web application using HTML, CSS, JavaScript, PHP, and MySQL.
- Designed responsive user interfaces for donor registration and patient request workflows.
- Implemented client-side validation and dynamic UI updates to enhance user experience.
- Integrated backend services to enable real-time data retrieval and efficient donor search functionality.

Portfolio Website

- Designed and developed a responsive personal portfolio website to showcase projects and technical skills.
- Applied modern UI/UX design practices to improve usability and visual appeal.
- Ensured cross-browser compatibility and optimized performance for faster loading.

INTERNSHIP EXPERIENCE

Web Development Intern – Oasis Infobyte (OIBSIP)

- Developed and optimized responsive web pages using HTML, CSS, and JavaScript.
- Improved UI/UX design by implementing modern layout techniques and best practices.
- Collaborated in a remote Agile team environment and consistently met deadlines.
- Followed clean coding standards and version control practices using Git.

ADDITIONAL HIGHLIGHTS

- Strong understanding of responsive design and cross-browser compatibility.
- Basic experience integrating REST APIs using Fetch and Axios.
- Ability to work independently in remote setups with effective time management.
- Quick learner with strong analytical and problem-solving skills.
